

Plugins

Plugins provide a system of extending DokuWiki's features without the need to hack the original code (and so again on each update). Below is a list of ready-to-use plugins created by DokuWiki users.

The installation can be done automatically by search and install the plugin via the [extension manager](#)¹⁾. A plugin could be manually installed by putting it into its own folder under `lib/plugins/`. See the detailed [plugin installation instructions](#).

Be sure to read about [Plugin Security](#).

If you would like to help translating the plugins into another language, please see this page [Localization of plugins](#).

Документация для веб-разработчиков

[Web Developer Guide](#)

Руководство веб-разработчика содержит полезные практические материалы, которые помогут вам использовать веб-технологии для того, чтобы делать то, что вы хотите или должны делать.

[Tutorials for Web developers](#)

Учебники, которые помогут вам шаг за шагом изучить HTML, CSS, JavaScript и веб-API.

[Accessibility](#)

Accessibility - Предоставление возможности использовать веб-сайты как можно большему количеству людей, даже если возможности этих людей каким-либо образом ограничены.

[Performance](#)

Performance (Производительность). Как можно скорее сделать контент максимально доступным и интерактивным.

[Security](#)

Защита пользователей от утечек и кражи данных, атак по сторонним каналам и таких атак, как межсайтовый скриптинг, внедрение контента и кликджекинг. Popularity values are based on data gathered through the [popularity](#) plugin - please help to increase accuracy by reporting your data with this plugin.

Creating Plugins

If your needs aren't covered by the existing plugins above, please have a look at our pages on how to [create and publish a plugin](#).

Reporting Bugs and Features Wishes

Two short notes:

- Please use the issue tracker of the plugin
- Provide enough information to reproduce your case

Please refer to [How to report bugs and request new features in plugins](#) for more info about this topic.

Ideas for New Plugins

Requesting Plugin

If you are in need of a special feature in DokuWiki but haven't the skills or resources to create your own plugin you might want to suggest the feature for consideration by the community.

To ask for the creation of a new plugin or to discuss plugin ideas, please refer to the [Plugin Wishlist Forum](#).

Recent Wishes in the forum:

More ideas...

Further some closed features requests, which we won't implement in DokuWiki core, are interesting ideas for plugins: [Doku Plugin idea](#)'s at our GitHub issue tracker.

- [Integrate MediaManager \(lite\) into Pageditor](#) — igittigitt (2018/05/15 17:41)
- [Provide oEmbed tags/endpoint](#) — chrisblech (2016/11/12 18:13)
- [Spam protection measures](#) — Traumflug (2015/12/04 21:46)
- [Possibility to use Tinypng when upload image ?](#) — LeDistordu (2015/06/15 12:47)

1)

Up to version Binky this was done with the [plugin](#) manager.
